

Data Protection Policy

Hydrogen Power Storage & Solutions e. V.

§ 1

DATA COLLECTION DUE TO ASSOCIATION MEMBERSHIP

- (1) The members of the association are mainly legal persons and similar institutions. In order to maintain association membership, the association will record the name, professional email address, professional telephone number and professional address including the company name of the contact persons of the members; in the case of the board members, their private address, date of birth as well as their position in the association will be additionally recorded. This information will be stored in the association's own EDP system and will be used for the association's internal communication (invitations, association information, etc.); in the case of the board members, it will also be used in connection with obligations arising from provisions governing the association register. In that context, the personal data will be protected by suitable technical and organisational measures against the access by unauthorised third parties.
- (2) The association will retain the services of an agent to manage the association's business. The association and the agent have entered into a contract that permits the agent to collect and use the data under a right derived from item (1) above. The agent is obliged to protect the data to the same extent as the association.

§ 2

OTHER DATA COLLECTION AND USE

Other information than the information indicated in § 1, which is worthy of protection under data protection law, will be stored and processed by the association only if the association has obtained an express consent to the storage and specific use.

§ 3

DATA ERASURE

If the membership in the association and/or the board terminates and/or if a natural person no longer works with a member of the association, we will erase the name of the contact person and, in the case of board members, also their private address, date of birth as well as their position in the association from the EDP system. If personal data of the relevant natural person is related to the accounting and/or the board membership, this data will be stored for a maximum of ten years in accordance with the tax law provisions. The period will start to run when the specific relation to the association has been terminated effectively.
